## INFORMATION ABOUT THE SERVICE

Your plan is for a Mobile Broadband service. It gives you access to our mobile network, and lets you access data.

### Minimum term

12 or 24 months

### Your monthly data allowance

**25GB** 1GB (Gigabyte) = 1,000MB (Megabytes). Your unused Monthly Data Allowance expires each month.

Your plan does not include any Monthly Call, or SMS allowance.

### What's included

Your Monthly Data Allowance can be used to access mobile internet with the BigPond device issued with this plan.

Your Monthly Data Allowance is for use in Australia only and expires each month. You can use your Monthly Data Allowance at any time (day or night). You won't be charged for any additional data use in Australia over your included monthly data allowance. Once you've used your included data allowance, your service slows down to 64kbps (even if the site is unmetered) for the remainder of that billing month. If you find you need more data see section 'Using Data in Australia' for more details.

'Unmetered' describes usage that doesn't count towards your Monthly Data Allowance. When you see the BigPond® unmetered icon (green dot), accessing these sites is unmetered. If you access a third party site, like clicking on an advertisement, this will count towards your Monthly Data Allowance.

Content charges apply (eg renting a movie or game on [bigpond.com](http://bigpond.com)).

### What's not

Your Monthly Data Allowance does not include usage overseas, or any voice or SMS allowance.

### Billing

The figures in this Critical Information Summary are for a full billing cycle but your first bill may include pro rata charges for part of the month if you started or changed your plan part way through a billing period – refer to the 'Important information about your first bill' section below for more information.

#### Important information about your first bill

When you first start a plan or change your plan part way through a billing period, your first bill will have additional charges. It will include your minimum monthly charge in advance, plus a proportion of your minimum monthly charge based on the number of days left in the billing period. If you move plans through your billing cycle you will receive your data on a prorated basis.

On the same day of each month, you'll be billed in advance for the minimum monthly charge, as well as for use during the month.

The plan requires paperless billing and electronic payment. A \$2 service charge will be applied per month in arrears if you receive a paper bill and/or make a bill payment in person or via mail. Some exemptions may apply. Visit [telstra.com/emailbill](http://telstra.com/emailbill) to request an email bill and/or set up direct debit.
